Below in more detail are the three most common types of personal insurance. We look forward to hearing from you for your no-cost, no-obligation, no-risk quotes.

Homeowners:

There are a lot of very commons lost opportunities to save money on your insurance. Most people don't know that depending on the year the home was built getting a simple Wind Mitigation done can offer substantial credits and savings. We can take a look at your current policy and recommend ways to save on your premium as well as making sure you have the best possible rate. To start saving money it's as easy as getting us your address!

Auto:

It was estimated in 2009 that 23.5% of drivers in Florida were uninsured, making our state ranked in the top 5 of the US*. This means that every time you are on the road 1 out of every 6 cars you see is most likely uninsured. Does your policy cover this? There are many different coverage options that should be looked at to make sure you have the best possible policy for your needs as well as the best discounts. Let us give you a no-cost, no-obligation, second opinion on your Auto Insurance.

Personal Umbrella:

A Personal Umbrella is another way to protect your assets and your future from unforeseen accidents. Accidents do happen-a trip over a loose stair or rug, a poorly driven golf ball, a bite by Fido. Even if the accident is not your fault you or it's a false/invalid claim you still have to pay to defend yourself. A few minutes and a few dollars can protect yourself and your family from a financial disaster.

Please call or send us a copy of your current declarations pages from your policies and let us take a look and shop this around for you.
